

ANDIKA PURNAMA

Junior Web Developer / IT Support

andikapurnama1803@gmail.com | [08979732548](tel:08979732548) | linkedin.com/in/andika-purnama |

PROFILE

Information Systems graduated with a strong interest in software engineering, web development, and digital product development. Experience in IT Support, data management and building web-based information systems using Javascript, PHP, Laravel, Reactjs and MySQL. Passionate about solving real-world problems through technology and continuously learning new tools, frameworks and development practices. Currently exploring modern software development and interested in expanding into mobile application development.

EDUCATION

- Bachelor of Information Systems | ISTEK Widuri**
2021- 2025

SKILLS

- Web Development (HTML, CSS, JavaScript, React.js, Tailwind CSS, Laravel, MySQL)
- Computer Troubleshooting (Hardware & Software)
- Operating System Installation (Windows)

PROGRAMMING & TOOLS

Programming & Web

- HTML, CSS, JavaScript, PHP
- TailwindCSS, ReactJS, Laravel
- Git & GitHub
- MySQL

Design & UI/UX

- Figma & Canva (UI/UX Design)

AI Tools

- Github Copilot
- Antigravity
- Claude Code
- GPT

WORK EXPERIENCE

+ IT Support - ISTEK Widuri

Nov 2023 - Okt 2025

- Performed installation, maintenance, and troubleshooting for more than 30 computers used in laboratories and campus operations.
- Supported hardware and software maintenance to ensure system availability.
- Conducted preventive maintenance and technical support for laboratory users.
- Assisted in maintaining a stable and efficient computing environment.

+ Part Timer - Binus JWC

Apr 2025 - Des 2025

- Managed data entry, validation, and updating processes with high accuracy.
- Improved data completeness and consistency through systematic verification.
- Performed two-step verification procedures to maintain data integrity.
- Supported academic operational processes through data management activities.

+ Technician Intern - PT. Kampoeng Gadget

Apr 2026 - May 2026

- Diagnosed and repaired computer and laptop hardware issues.
- Installed operating systems, drivers, and software applications.
- Performed hardware upgrades such as RAM, SSD, and other computer components.
- Assisted customers with technical troubleshooting and support.

PROJECTS

+ Alumni Information Management System

Type : Final Year Project

Technologies :

- PHP
- MySQL
- Bootstrap

Description : Designed and developed a web-based information system to manage alumni data, track graduate information, and support administrative activities.

Impact : Improved alumni data organization and accessibility for administrative staff.

+ Crypto Dashboard Web Application

Type : Self-Initiated Project

Technologies :

- React.js
- Javascript
- Tailwind CSS
- CoinGecko API
- Vercel

Description : Developed a responsive cryptocurrency dashboard that provides real-time market information, including cryptocurrency prices, market capitalization, trading volume, and market trends. The application integrates external APIs to deliver up-to-date data and improve user accessibility to cryptocurrency market insights. Features commonly found in crypto dashboards include live market data, search/filter capabilities, and market statistics.

Impact : Created an easy-to-use platform for monitoring cryptocurrency market information in real time, helping users quickly access market insights through a modern web interface.

+ CashApp - Personal Finance Management System

Type : Self-Initiated Project

Technologies :

- Laravel
- Reactjs
- MySQL
- REST API

Description : Developed a full-stack personal finance management application called CashApp to help users record and monitor their income, expenses, and financial activities. The application was built using Laravel as the backend API, React.js as the frontend, and MySQL as the database system. The project focused on financial data management, user-friendly interfaces, and full-stack application development.

Impact : Created a digital solution for recording and monitoring personal financial activities, enabling users to better track their spending and income.
